

# United Futbol Academy

## Who We Are

The United Futbol Academy (UFA) is a nonprofit organization established in 2010 out of the need to promote the game of soccer and to provide a new soccer experience for the community. UFA is Georgia's premier soccer club and is the result of the merger of neighboring soccer clubs: Atlanta Soccer Academy and Forsyth Fusion Soccer Club in 2010, Norcross Soccer Academy in 2014, and later South Georgia United in 2015.

Our purpose is to create challenging programs that are attractive to the novice player, challenging to the average player, and demanding to the most advance player wanting to play at the highest level. We want to develop a multicultural organization with a vast array of staff and players to further enhance the culture of the game in an environment that is professional yet enjoyable. Currently, UFA has teams competing in Region Premier League (RPL) and National League, and we produce state and national champion teams.

At UFA, our method to developing players begins at the grass roots level and continues through the highest levels of play within our programs. Our motto – Skills for Soccer. Skills for Life. – is the backbone of our philosophy. While we strive to develop each player's soccer potential at the pace of the player, we attempt to help instill the moral values of life into the game of soccer. It is our challenge and responsibility to create an environment in which players can reach their full soccer experience that is necessary to be successful both on and off the soccer field.

## Our Programs

### Recreational Programs

- Youth U4 - U19
- Adult League

### Travel Programs

- Academy U8 - U12
- Select U13 - U19

### Elite Programs

- Regional Premier League
- National League
- USSF Academy (GA United)
